B2B sales growth

Easier Access to Capital

TRX simplifies the financing process, making it more accessible to a broader range of consumers. By streamlining applications and employing more inclusive approval criteria, TRX ensures that more individuals can secure the funding they need for more efficient operations.

Control of Rates

Understanding the financial burden of various industries, TRX offers competitive interest rates and discount rates to the merchants. This approach helps merchants and consumers manage their finances more effectively, reducing the cost to access capital and eliminating the need for merchants to manage float.

Flexibility on Fund Usage

Unlike many traditional financing options, TRX doesn't restrict how customers use their funds. This flexibility allows individuals to cover not just on the specific purchase, but also create a line of credit for merchants.
